Embassy of Sweden
Bucharest

A large, modern glass skyscraper is illuminated with vibrant blue light at night. The building's facade is composed of many rectangular windows, some of which are lit from within. The blue light is projected onto the building's exterior, creating a striking contrast with the dark night sky. The Accenture logo is visible on the top left of the building. In the foreground, there are some trees and streetlights, also illuminated with blue light. The overall scene is a high-contrast, modern architectural display.
